Advanced Blockchain Project Operations Map [3.1]
Essential reading for healthy, sustainable blockchain projects · Author: WeChat wmacro
1 Blockchain fundamentals
Blockchain will trigger the philosophical trend of economic systems
Blockchain industry industry chain
The development trajectory of blockchain
Global blockchain market capitalization and investment trends
How does the Bitcoin network work?
Global Regulatory Policy
Blockchain technology architecture
2 Cryptocurrency ecosystem
Comparison chart of world mainstream assets
Centralized trading system technical architecture
Exchange business model
Compliance
Current market space
Bitcoin basic data
Exchange business model
Blockchain wallet
3 Mining ecosystem
The iteration history of Bitcoin mining machines
Classification summary of mainstream mining
Virtual currency mining industry chain
Mainstream miner cost-performance
Bitcoin hashrate trend
4 Blockchain platform ecosystem
Blockchain thinking comparison
The development iteration of mainstream public chains
Mainstream public chain technical indicators
Decentralized blockchain digital economy
Top-level planning logic for international blockchain projects
Top-level planning components
Business project
Business schools and research institutes
International organizations and associations
Investment and financing fund
Virtual currency (coin listing)
The most creative section
The most cohesive section
The most trustworthy section
The most competitive section
The most valuable section
Token economy model
Virtual currency cross-border remittance product model
5 Blockchain applications
General logic of token incentives
Blockchain investment trends
Blockchain technology application direction
Project legal compliance
Exploration of Internet Giants
Actions across China
User profile
Supply chain finance blockchain platform
Whether to enable blockchain technology strategy
6 Operational growth
Project construction process
Four major issues in community operations
Marketing Rhythm Chart
User layered operation strategy
Mainstream channels and comparison
User journey and conversion map
total score
Micro classroom
Community organizational structure
Personal account matrix
